Direct Indicators

- Number of Students Engaged (Service Learning, RA/GA)
- Number of Community Partner Organizations, Institutions, and Ad Hoc or Grassroots Groups
- Number of Infrastructure Tools
- Number of Participants in Programming (Individuals Served)
- Number of Hours of Direct Engagement
- Number of Successful Goals/Outcomes
- Number of Output Products

Impact Scores

Logarithmic Scale

Outcomes
- Outputs
  - Range of Outcomes
  - 1 kind
  - Many kinds
- Sustainability
- Growth in Capacities

Intervention and Research
- Frequency
- Duration
- Research and Design Collaborations
- Tone and Voice

Contexts
- Diversity of Community
- Capacity
  - Concentrated in 1
  - Distributed
- Resources
  - Concentrated in 1
  - Distributed
- Origin of Issue
  - From Research Team
  - Negotiated
  - From Community

Partnership Processes
- Tools
- Distribution of Decision Making Authority
- Benificence
  - For the Benefit of 1
  - For the Benefit of Both
  - For the Growth of Both
- Bridging Sociocultural/Community Capital and Wealth

Ripple Effect Score

Structure

Social Network Model with 3 "levels"

Level 1
- Identify number of groups of people in Level 1
- Research Team
- Direct Partners
  - Institutions/Organizations
  - Community Members

Level 2
- Approximation of number of connections for each Level 1 group

Level 3
- Approximation of number of connections for each Level 2 individual based on Level 1 group

Intra-Level Connectivity

Level 1 nodes are 100% interconnected

Levels 2 & 3
- Probability that individuals are connected in each group
- Probability that individuals in one group are connected to individuals in another group

Scoring

Continuum of Transformation Score (Select All That Apply)
- Exploitative - Only the research team or the community benefits
- Transactional - Both the research team and community benefit
- Transformative - Both the research team and the community grow and change
